

MODEL 500 Filtered Blower

Cools, Dustproofs, and Pressurizes Enclosures up to 200 ft³!

ELECTRA-KOOL™ FILTERED CENTRIFUGAL BLOWERS prevent electrical components from failing due to exposure to heat & dust - minimizing factory down time. If ambient air is suitable for your cooling needs, **ELECTRA-KOOL™** centrifugal blowers are a fraction of the cost of an air conditioner and much less expensive to operate than a compressed air device! Save money on maintenance as well!

The **ELECTRA-KOOL™ Model 500** Filtered Blower includes:

- Rugged cast aluminum housing to withstand tough factory environments.
- Baldor® 1/3 HP, 3450 RPM motor (3ph TENV, 1ph TEFC) with aluminum impeller, blowing 455 CFM.
- Pleated Paper Filter rated for 99.9% efficiency @ 0.5 microns nominal! Catches industrial dust too small to see! Surface area of 44 ft²!
- Non-woven prefilter to pick up larger dust particles and extend the life of the main filter.
- Accessory Pack! Includes 3 louvered vents for hot air escape, a digital thermometer to monitor internal temperature, an air deflector plate for hot spots and all necessary mounting hardware.
- Quick & Easy Installation!! Bolts to the side, top or front of your enclosure in any position (3.5" cut-out required).
- Reusable filter and prefilter - both can be easily cleaned & reused!
- Fingerguards installed on both the inlet and outlet for your safety.
- Old School Product & Technical Support - **we will always be there for you!**

Model 500 is Stocked!
SHIPS SAME DAY!!
